## Correction

Article title: Effects of a pulmonary rehabilitation program on exercise capacity, muscle oxygenation, and respiratory and peripheral muscle strength, in a patient with subphrenic abscesses: A case report

Authors: Başak Kavalcı Kol and Başak Çiğdem Karaçay

Journal: IPTP: Physiotherapy Theory and Practice

DOI: [10.1080/09593985.2026.2647783](https://doi.org/10.1080/09593985.2026.2647783)

In the above-mentioned article, [Figures 2](#) is updated as below:

**Figure 2.** Postero-anterior chest radiograph obtained at the time of the patient's admission to the pulmonary rehabilitation program demonstrating residual pleural changes (**arrow**) following surgical treatment of the subphrenic abscess.
