Correction: Child Psychiatry & Human Development <https://doi.org/10.1007/s10578-025-01881-9>

In this article, references in the references list were incorrect. The references were not in the correct numerical order. The in-text citations appear correctly numbered, but the corresponding entries in the reference list do not match this order. The references should have been appeared as below.

The original article has been corrected.
